- Declared performance properties of the construction product:

No.	Declared characteristic	Value
1.	Dimensions *	width
		length
		thickness
2.	Straightness (maximum deviation)	1,0 mm (±1 %)
3.	Concentration of natural radioactive elements: - f1 - f2, Bq/kg	not more than 1 not more than 185
4.	Content of chloroform-soluble components	not less than 700 g/m ²
5.	Flexibility at 0°C - top surface - bottom surface	no cracks no cracks
6.	Resistance to temperature of 70°C for 2 hours	no mass flow allowed
7.	Perforation diameter	40 mm (± 5%)
8.	Membrane perforation	not less than 12%

* the possibility of producing roofing felt with different length and/or width is permitted, provided that the length and/or width values determined in testing are not less than those declared by the manufacturer.

- Name and number of the accredited certification body and/or laboratory, as well as the certificate number and/or type test report number, if such a body participated in the applied conformity assessment system for the construction product:
Łukasiewicz-IMBiGS, Łukasiewicz Research Network – Institute of Mechanization of Construction and Rock Mining
Al. W. Korfantego 193, 40-157 Katowice.
Test report No. 81/20/135/P-1.
- I hereby declare full responsibility that the construction product complies with the technical specification indicated in point 5.
